

OBJECTIVE

I am seeking the next step in my career journey as a Front End Developer. My proficiency in HTML, CSS, JavaScript, PHP, Tailwind, Git/GitHub, and WordPress, combined with a successful track record at Wish Agency, positions me as a valuable asset ready to contribute to challenging and impactful projects in a new role.

Luke Andrew Coleman

FRONT END DEVELOPER

Experienced Front End Developer with close to two years of hands-on expertise at Wish Agency, where I have been actively involved in diverse web development projects. Committed to delivering innovative solutions.

EXPERIENCE

FRONT END DEVELOPER, WISH AGENCY

April 2022 – Present

Assisted in the development of client websites, adhering to best practices in coding and design principles. Implemented responsive design techniques to enhance user experience across various devices and ensured cross-browser compatibility and optimized website performance for seamless user experiences.

I continuously learn and develop my skills to stay current with evolving web technologies.

DESIGNER / AV ENGINEER, FINITE SOLUTIONS

September 2014 – April 2022

Responsible for comprehensive system design, documentation, installation, and testing of cutting-edge smart home control systems and intelligent lighting solutions. Led cinema design initiatives and crafted compelling proposals for both cinema and complete smart home systems.

ELECTRICAIN, J&R ELECTRICAL

October 2013 – September 2014

Installation and meticulous testing of electrical systems, encompassing power, lighting, and data provisions for both residential and commercial settings ensuring that every aspect adheres to the most stringent standards, guaranteeing excellence in both functionality and safety.
